

SWISS SHAREHOLDER SOLUTIONS & SERVICES

Nimbus is backed by technology pioneers and experts in Swiss law. Issuers and shareholders can place their complete trust in Nimbus’ solutions and services – the brand has stood for reliability, experience and expertise for almost 30 years. This is also why established Swiss companies have relied on Nimbus’ shareholder solutions and services for many years and value the collaborative partnership.

Nimbus operates the solutions suite from its own data centre, provides the necessary hardware and software resources, guarantees secure access to authorised persons and is responsible for data back-up.

The issuer can choose to maintain the share register themselves using Nimbus’s Application Service or take advantage of the Business Process Outsourcing service and let Nimbus take care of the management of their share register.

ABOUT NIMBUS

Clear focus - close to the customer

Our market services are geared to the processes between issuers and their shareholders. With our products, we support the dialogue between companies and their owners in exceedingly effective ways.

Efficient

Nimbus is the partner of choice for around 100 companies from all industries and we are able to organise multiple shareholders’ meetings on the same day.

Everything from one source – highly innovative – leading products

We developed our software packages ourselves. Our products are continuously modified to meet market requirements. To do this, we harness the experiences of our users as well as new technological options. Nimbus VotingSystem VS® is registered as European Patent EP 1 353 299.

Professional team of 20 employees

Long-serving employees with broad application experience and extensive technological expertise provide high quality services geared to the real world.

Reliable

Nimbus has been a reliable partner in share register management and shareholders' meeting organisation for almost 30 years. Long-term customer relationships are the hallmark of our work.

Independent

Nimbus' only responsibility is towards its customers and is managed by Hansjörg Stucki as its incorporator, owner and CEO. Our Supervisory Board comprises independent persons. Nimbus finances its investments with funds it has generated itself and is free of any third-party capital.

THE COMPANY AND ITS REMIT
